

## SPECIAL LECTURE COURSE UNDER AUSPICES OF Y. M. C. A.

First Number on Program Will Be Lecture on Wireless Telegraphy—Committee Has Charge of Program—Music Number is Next on This Season's Lyceum Course.

Announcement is made by the Calumet Y. M. C. A. of a series of special lectures which will be given throughout the fall and winter season in this city on practical subjects which will be free to all of the members. The talks will be entirely informal and will consist to a large extent in the answering of questions by someone qualified to answer them on a large number of practical questions in everyday life. The lectures will be given at regular intervals and will be for the benefit of any member who desires to attend.

The matter of selecting the subjects and the speaker has been placed in the hands of a committee consisting of Angus McKinnon, Julius Ziegler and Elmer Larson. This committee will probably provide some number each week which will be interesting as well as instructive.

## RED JACKET COUNCIL TO HOLD SPECIAL MEETING

A special meeting of the Red Jacket village council will be held on Monday evening to consider a number of matters important to the residents of the town. Prominent among these is the proposed extension of Fifth street beyond Pine to the village limits, including the length of the street about one block and an alteration of the ordinance covering the duties of the electrical inspector, providing him with a new method of collecting his fees.

The fifth street extension proposition is an ancient one and the result of the village fathers' deliberations is awaited with interest. Every other street in the village extends beyond Pine street to Spruce street, the northern extremity of the town, but before the fifth street improvement can be realized the intervening property must be purchased. The residents of

## KNIGHTS OF COLUMBUS WANT C. COLUMBUS MADE A SAINT

Petition, However, Has Met With Some Opposition—Project is Endorsed by Archbishop Ryan at Philadelphia and the Knights of Columbus to the pope in favor of the canonization of Christopher Columbus.

Much interest has been aroused by a petition addressed by Archbishop Ryan at Philadelphia and the Knights of Columbus to the pope in favor of the canonization of Christopher Columbus. A distinguished prelate of the congregation of rites is quoted as declaring the petitioners are unlikely to obtain satisfaction. "Too many weaknesses," he said, "marred the life of Columbus for canonization to be possible."

This view is not shared by all as from Spain and Italy, as well as many parts of the United States have come requests of the same kind.

The first step in the process of canonization has to be taken by the bishop of the diocese to which the possible saint belonged. Where was Columbus born? Who shall say whether it was at Genoa, Savona, Monferrat, or Cosentino? Besides there are other places which claim the honor of having given birth to the great discoverer.

One thing only seems to be sure, and that is that Columbus was an Italian. This is Italy's claim. Spain argues that as a saint he should be called Spanish, as had it not been for that country he would have died in slavery.

America points out that he owes his lasting celebrity to the fact that America existed and that one only finds his cult here.

That Archbishop Ryan should have expressed a hope that the national hero would be made a saint has given a great impetus to the movement.

That Pope Pius also revered Columbus is seen by his words: "Christopher Columbus, who was inflamed with zeal for the Catholic faith, resolved by undertaking the most daring of voyages, to discover a new world, not to add new lands to the crown of Spain, but to bring new peoples under the reign of Christ—that is, of the church."

## LYCEUM COURSE NUMBER.

The next number of the Y. M. C. A. lyceum course will be a musical entertainment by the Parland-Newhall company at the Calumet theatre on November 22. This company is one of the best on the entire program and the holders of course tickets and others are looking forward with interest to the entertainment.

## BIG PINOCCHIO TOURNAMENT TO BE HELD IN KEWEENAW

Series of Fifty Games Lasting Five Nights Will Be Played, and From Eight Highest Team Will Be Picked to Meet Houghton County Champions—New Hockey Team at Mohawk—Other News.

Lovers of card games in Mohawk will be given an opportunity to spend their leisure time at the sport during the fall and winter evenings. Due to the complications which exist between the pinocchio players of Houghton and Keweenaw counties, the Mohawk Fire department has decided to conduct a tournament to determine the champions of Keweenaw county. Those in turn under the auspices of the fire department, will be pitted against the champions of Houghton County, provided of course, the players from across the line can be induced to make a match. It is expected that a great deal of interest can be worked up in the matter as bitter rivalry exists between the players of the two counties. The object of the fire department is to form a club with as many members as can be gotten together in Keweenaw county. It is proposed that a series of games lasting five nights be played, commencing Tuesday evening, November 30th in the parlors of the fire hall. Fifty games will be played and suitable prizes offered for the winners. An entrance fee will be charged to participate in the contest and upon payment of this fee the person will be termed a member of the club. Membership cards will be issued and holders of the same will be entitled to all the rights and privileges in connection with the affair. Both ladies and gentlemen may compete. Persons may become members at any time but to compete for prizes in the contest must play not less than forty games in each series. Individual records will be kept of each person participating and the winners determined from this list. From the eight persons standing highest on the list the champion team will be selected, eight only being eligible to compete for a place on the team. For this final series the leaders will be granted the privilege of choosing their partners. The project has been talked over pretty generally and apparently meets with the approval. Socially the affair should prove a remarkable success. Honors are being sought by lovers of pinocchio, which assures a large attendance of both contestants and spectators.

## LAURIUM

STRAWBOARD WILL BE MUCH USED BY WHOLESALE FIRMS

Many Concerns Now Employing This Instead of Wood Boxes for Shipping Merchandise—Is Cheaper and Giving Satisfaction—Coming Into Wide Use.

"During the past year or so straw board for the manufacture of merchandise shipping boxes has come largely into use and I believe that the time is not far distant when 75 per cent of the merchandise shipped from the manufacturing centers will be packed in this material instead of in wood," said a business man yesterday. "Lumber has become so expensive that the outlay for box material is now a big item to the wholesalers and jobbers. I understand that straw board boxes are being provided at about one-third the cost of wooden boxes, and they have been found practicable for shipping purposes, especially for light packages. The manufacturers of crackers, confectionery, and other articles are using a great quantity of straw board boxes. Ordinary cracker boxes that formerly cost from eight to ten cents a piece are now worth from twenty-five to thirty cents. The straw board cracker box can be placed in the hands of the shipper for twelve or thirteen cents. As the cost of the box material enters into the cost of the goods purchased, it is to the interest of the retailer to have their goods come in these packages, provided they can be delivered in as good condition as in the more substantial boxes. The freight men have to use a little more care in handling them."

P. E. Graves, a prominent real estate man of Minot, N. D., is at the head of a movement for a more general use of straw board. The use of this material in the construction of railway passenger coaches has been recommended by J. J. Hill of the Great Northern system. The Pennsylvania railway system is using straw board almost exclusively in its car bodies.

O. C. Gardner of New York is said to have spent the past twenty years and \$100,000 perfecting the manufacture of straw board. He has the only factory of his kind in the country. He is turning out an article that, when it is highly polished, resembles hardwood.

This promising industry will result in much benefit to the farmers. Mr. Gardner recently gave a lecture to a large number of farmers in North Dakota on the advantages of the straw board. He said that he could afford to pay the farmers \$5 a ton for their straw and that he could manufacture the board at a cost of from \$15 to \$20 per 1,000 feet. He estimated that one ton of straw will make 2,000 feet of quarter-inch lumber, such as would be used in box manufacturing, and for various other purposes. A plant which would manufacture 75,000 feet per day would cost from \$250,000 to \$300,000. Lumber at the present time is retailing in New York at an average of about \$60 per 1,000 feet. Mr. Gardner maintains that a big profit would be obtained on straw board manufacture under his process at not to exceed \$20 per 1,000.

ers have won high honors on the field before leaving their homes in England. A great many of the followers of the great English sport will accompany the team. The line-up will be: Goal, W. Berriman; back, J. Francis, G. Gray, (capt.); half back, A. Lagg, J. Quick, E. Penhallow; forwards, J. Chapman, J. Wall, J. Ellis, W. B. Lagg and J. Haraganath. Backs, Goldworthy, Carlines and Hollow.

## CONCERT AND LUNCH.

Entertainment Will Be Given at Laurium M. E. Church. Arrangements have been made for a social and concert to be given at the Laurium M. E. church tomorrow evening at 7:30 o'clock. Those in charge of the affair promise that it will be one of the most enjoyable church functions that have ever been attempted and that several new features will be introduced. The following program has been prepared:—

Chorus by H. J. Stewart in D minor, choir.

Recitation, selected, Prof. Vincent. Solo, Under Southern Skies, Master Alfred Johns.

Quartet, with Obligato solo, by Laila Holmstrom, Miss Cora Gillett.

Solo, flute obligato ad lib. by H. De Fantenallia, John K. Robbins.

Duet, Rhythms, by Elizabeth Gould, Misses E. Traflet and J. Williams.

Solo, I Sing a Little Tenor, Burlington or bass, R. E. Odgers.

Reading, The Blind Head, Arthur B. Cadwell.

Solo, For All Eternity, by Vincent D'Indy, Miss Myrtle Gray.

Solo, Skipper of St. Ives, by L. L. Perruchot, Geo. Leonard Cadwell.
